Data Processing Digest

3848 FREDONIA DRIVE, • LOS ANGELES, CALIFORNIA • 90068

PUBLISHED EACH MONTH SINCE 1955

VOLUME 39, 1993

1993 ANNUAL SUPPLEMENT

INDEX AND REFERENCE LIST

Title Index 1
Author Index 5
Subject Index 7
References 10

INDEX

This is the annual index for DATA PROCESSING DIGEST for the year 1993, Vol. 39, Nos. 1-12. the index is divided into three sections: the list of titles as they appeared in the Digest, a list of authors, and a subject index. All articles have at least one subject citation. Italicized titles are books, periodicals or reports. The numbers following the entries indicate issue and pages in which the item is found. The number preceding the hyphen is the issue; the numbers following the hyphen are the pages.

TITLE

Ability, Motivation, and the Job Itself: What Is the Relationship?, 9-16
Accelerated Application Engineering—A Cost-Effective Development Approach, 2-13
Achieving Interoperability, 6-15
Active/Available and Available/Active: Are You Sure Your Back-Up Facilities Are Workable In an Emergency?, 3-16
Advances In Digital Image Compression Techniques, 7-22
ALL-IN-1: Managing and Programming In V3.0, 4-11
Applying Software Engineering, 12-14
Audit Of EDI Systems, 1-20
Auditing the Disaster Recovery Plan, 10-16
The Automation Of Software Estimation, 2-9

Background Checks For Employees In Positions Of Trust, 10-15
Bail-out-sourcing, 3-7
Basic Principles For Measuring IT Value, 1-4
Battling BLOBs To Build Image Networks, 8-17
Before Calling For Software Support...Getting Customers To Help With Support, 10-11
Before Disaster Strikes, 8-11
Benchmarks Get Real, 3-13
Beyond Decision Support, 9-10
Beyond High Tech To High Touch: Achieving IS Quality In the 1990s, 9-15
Bleak Measurement Picture, 8-5
Broad Band Decisions, 6-21
Build a Safety Network, 2-2
Business Planning: Recipes For Fusion, 11-5
Business Profits From Bulletin Board, 7-8
Business Resumption Planning: Exercising the Disaster Management Team, 8-15

Can Kerberos Really Make UNIX Secure?, 3-18
Capturing Design and Maintenance Decisions With MACS, 2-19
A Case For Clustered Workstations, 7-17
The CASE Manifesto, 7-13
The Challenge Of Object Technology, 11-11
City Limits, 11-4
Civil Remedies For the Victims of Computer Viruses, 10-20
A Clear Approach To Fuzzy Logic, 2-14
Client-Server Computing, 6-6
A Client/Server Interface, 11-9
Client/Server Management Arrives, 1-6
Client/Server Middleware: Making Connections Across the Enterprise, 6-8
Client/Server System Architectures and Control and Security Implications, 4-4
Client/Server Tell-All, 3-11
Client-Server vs. Store-and-Forward Groupware, 12-10
COBOL Workbenches Get Down To Business, 10-8

Coding Cowboys & Software Sages, 9-2
Compaq Takes On the Enterprise, 12-16
Compression: The Ultimate Data Disguise, 3-17
Computer-Augmented Environments: Back To the Real World, 9-25
Computers Simplified, 5-14
Concurrent Object-Oriented Programming, 11-11
Constructing Difficult-To-Guess Passwords, 7-12
A Consultative Approach, 11-7
Corporate Transformation and Client/Server Technology, 12-5
The Costs and Benefits Of CASE, 8-7
CQI + SIA = Success, 2-5
Critical Issues In IS Management, 3-5
Cutting a Better Deal With Your Vendor, 8-13

DASD Seeks an Identity, 10-19
Data Acquisition Techniques Using Personal Computers, 1-22
The Database Way To Integrate E-Mail, 6-22
The "Date Wars," and Management By Issue, 7-1
Debunking Metric Myths, 4-9
Defining the Role Of the CIO, 4-1
The Demise Of the I.T. Strategic Plan, 4-3
Designing Maintainable, Reusable Interfaces, 2-18
Desktop Publishing Goes On Line, 3-9
Details Commonly Overlooked in Information Processing Contingency Plans, 1-16
Develop Applications On Time, Every Time, 2-11
Digesting New Technology, 12-15
Disaster Recovery At the WTC, 9-17
Disasters Raise Hot Recovery Issues, 2-22
Distributed DBMSs Move Into the Trenches, 6-20
Divide and Conquer, 9-22
Do It Yourself, 5-4
Do You Measure Up?, 2-7
Does Reengineering Really Work?, 10-9
Don't Fence Me In, 11-9
Doomsday, 11-1
The Downsides Of Downsizing, 7-11
Downsizing Without the Fuss, 2-21

EDI Releases 2.0, 8-20
Editorial, 10-6
Efficiency Einsteins, 5-9
Employee Privacy and Intrusion Detection Systems: Monitoring Activities On the Job, 1-18
The Enemy Within, 2-1
The Enhancement Release Process, 2-11
Enterprise Network and Storage Management: Is There a Disaster In Your Future?, 12-8
The Essence Of Objects: Concepts and Terms, 4-9
Establishing a CASE Toolbox—15 Steps To Selecting CASE Tools, 2-19
Everyday Heroes Of the Quality Movement, 12-18
Explosive Thinking, 7-3
Extended Objects, 10-4

Fagan's Inspection, 6-14
Fast, Faster, Fastest Development, 8-4
Fax On a Network: What's the Big Deal?, 5-12
FDDI: An Introduction To Fiber Distributed Data Interface, 1-23
Files With Faces, 2-21
Fire Protection For Critical Computer and Electrical Control Cabinets Using Carbon Dioxide, 5-7
The Forces Of Democracy, 7-6
Forget Magnetic, Think Rewritable Optical, 11-18
A Framework For Managing IT-Enabled Change, 9-11
From Anarchy To Optimizing, 10-5
From Art To Part, 1-21
Fuzzy Logic, 9-26
Fuzzy Logic's Uncommon Sense, 5-1

Games Integrators Play, 11-14
The Games YOU Play, 11-15
Get It Together, 8-10
Get Smart Management For Your Smart Hubs, 6-22
Getting Everyone On Board, 8-10
Getting the Fundamentals Right, 4-6
Getting Ready For Strategic Change, 8-9
GISs and the Financial World, 7-26
Global Software?, 10-2
Grow With the Information Flow, 7-6
A Guide To the Potential Misuse Of Computer Graphics, 7-12

Hard Demand For Soft Skills, 6-6
Have Tools—Need Blueprint, 6-7
The Heavy Burden Of LAN Costs, 8-16
Help Desks Centralize the Assistance, 2-23
Here and There, 6-4
High Spirits At Seagram, 10-10
Hold On To Your Head, 10-1
How Are We Doing?, 7-3
How ISO 900 Quality Programs Affect IS, 10-2
How To Certify That Training Works, 11-8
How To Get "Runaway Projects" On Track, 5-10
How Version Control Works, 9-3
Human Error: An Overlooked But Significant Information Security Problem, 5-9

I Spy, 1-13
If Information System Outsourcing Is the Solution, What Is the Problem?, 1-1
Implementing Software Engineering In a Small Software Group, 7-14
Important Lessons From the New York World Trade Center Towers Bombing, 6-13
Improving the Effectiveness Of Classroom Training, 5-11
Information Competition: Can OLTP and DSSs Peacefully Coexist?, 9-7
Information Management For Competitive Advantage, 9-9
Information Politics, 1-3
Information Security In Workstation Environments, 7-11
Inside an Outsourcing Deal, 6-3
Insurance and Contingency Planning: Making the Mix, 9-17
Integrating Data Security Into the Systems Development Life Cycle, 10-14
Into the Fray, 12-9
Introduction to Parallel Algorithms and Architecture: Arrays, Trees, Hypercubes, 9-27
Invasion Of Privacy and Computer Matching Programs: A Different Perspective, 3-14
Involving Application Programmer In Performance Issues: An Analysis Of Success Factors, 9-3
Is It Designed Right?, 7-15
Is It Time To Insource Your Financial Apps?, 11-7
Is Object Technology Software's Industrial Platform?, 4-8
Is There a Safe Migration Path?, 7-10
Is Your EIS Too Stupid To Be Useful?, 8-2

IT Help Desk Will Become Key Resource In Tomorrow's Business, 9-13

Jobs' NeXTSTEP Is Onto Intel PCs, 7-21

Language Processors: What They Do, Who Makes Them, and Why You Need Them, 4-10
Learn Lingo To Avoid Lease Contract "Gotchas," 3-7
Learn While You Work, 10-3
Learning To Put Lessons Into Practice, 11-13
Liberation Technology, 7-7
Lights, Camera, Action—Multimedia!, 7-24
Look, Ma, No Wires!, 7-8
Lying To Management, 8-1

Making Alliances and Partnerships Work, 12-7
Making Strategic Architecture a Reality, 3-2
Making the Wireless LAN Connection, 10-13
Management Perspectives: What You Need To Know About Vendor Responses To the Rightsizing Opportunity, 7-19
Managing Distributed Systems Dilemmas, 11-10
Managing the Document Management Explosion, 9-24
Managing a RAD Project: Critical Factors For Success, 2-17
Manufacturing With an Enterprise View, 11-21
Marangraphics Series Of Simplified Computer Guides, 1-22
Mastering E-Mail Management, 3-9
Methodology Mania: Which One Fits Best?, 6-15
Missing Links, 12-11
The Modern Micro Mandarin, 1-9
Multimedia: Midrange Gets In the Picture, 7-22

NAS Architecture Reference Manual, 11-22
Negotiating Skills For Capacity Planners, 10-11
Network Jam, 7-10
Network Security: Is Your LAN a Sieve?, 11-19
Networking In the '90s: The Infrastructure Emerges, 12-1
Networks Need Place In Contingency Plans, 9-18
A New Approach To Data Management Catches On, 1-7
The New Palmtops: Tools Or Toys?, 9-25
New Wrinkles In IS Outsourcing, 11-2
NextStep 3.1 For Intel, 8-22
The Nintendo Revolution, 6-5
Not All Talk, 9-20
Not Quite Ready For Prime Time, 8-22
Novell Casts a Wider Net, 2-4
Novell Incident May Spur New Security Tools from LAN Vendors, 2-3
Now You Can Outsource Remote LANs, 9-21
NT: Is It Ready For Critical Apps?, 7-21

Object Databases Find Their Niche, 11-13
Object Orientation Under Fire, 9-4
Objection!, 8-3
Object's Bumpy Road, 10-4
OLE 2.0: Stronger Glue, Stickier To Use, 12-16
One Company's Solution to Software Testing, 6-17
Optimizations In C, 6-19
Orchestrating Project Organization and Management, 12-12
Out Of Sight, Out Of Mind, Out Of Luck, 12-3
Out To Get You, 5-8
Outsourcing Confessions, 4-3
Outsourcing & Downsizing: A Capacity Planner's Viewpoint, 9-6
Outsourcing: Look Beyond the Price Tag, 1-2
Outsourcing Presents Challenges Security Professionals Cannot Ignore, 5-10
Outsourcing: Promise Or Scourge, 8-13
An Overall IT Resources Plan: A Strategy For Cost Control, 7-17
Overhaul Ahead, 3-10

The Path To Strategic Alignment, 3-1
A Paucity Of Panaceas: Software Metrics Won't Eliminate the Productivity Crisis, 4-9
PC Census Takers, 8-14

REFERENCES

The staff of Data Processing Digest regularly monitors a wide variety of computer-related and general business, educational, and scientific periodicals for appropriate articles to digest each month. The emphasis changes as the industry changes, the list varying from year to year and even from month to month, as new periodicals appear and others cease publication or change their editorial direction.

In the monthly issues, only the periodicals referenced in that issue are listed. All addresses which to not include a country are located in the United States.

If you wish to obtain a copy of the complete original article digested in DPD, please request it from the publisher of the originating periodical. Do not write to Data Processing Digest, as we do not copy or reprint, and your request will be delayed. Books should be ordered from their publishers or from a local technical book store.

TO LIBRARIANS AND SUBSCRIBERS:
Please accept our apologies for several errors in the date lines during 1993. Please change your copies and records as follows:

February issue:	Page number dates should be 2/93.
August issue:	Date line under banner on page 1 should read: Vol. 39, No. 8, 1993

DATA PROCESSING DIGEST is a monthly information service for computer professionals and corporate management, consisting of digests of appropriate articles selected from a continuously monitored range of computer, business, industrial, and professional publications. Staff reviewers: R.H. Lipsett, J. Van Speybroeck. Editor-Publisher: Margaret Milligan.

DATA PROCESSING DIGEST is published by Data Processing Digest, Inc., P.O. Box 1249, Los Angeles,, CA 90078, USA. Tel: (213) 851-3156. Associate Publisher-Business Manager: Gisela Ilse Wermke.

SUBSCRIPTION RATES: U.S., Canada, Mexico: 1 yr. $175. All other countries: 1 yr. $190. Single copies, current issue: $14.75 each. All payments in U.S. dollars. Inquire about rates for multiple subscriptions.

MISSING ISSUES: If your monthly issue does not arrive at its regular time and you notify us within one month of normal receiving date, we will replace it at once free of charge. Continual missing issues are rarely caused by poor postal delivery, and may have been misdirected or lost at the recipient's location. Replacements and back copies may be ordered at $10.00 each. Some full volumes of back issues are available. Write for prices.

REPRINTS: DPD does not furnish reprints of original articles. Write to the original publishers listed in DPD's References. PHOTOCOPYING IS PROHIBITED, but DPD permits copying of a single digest for internal use only. MICROFILM single copies or subscriptions: Order from University Microfilm International, 300 N. Zeeb Rd., Ann Arbor, MI 48106, USA.
